

Today's sermons are about Jonah. As an exercise for using your Bible and Bible study tools, the following questions regarding Jonah's birth place are posed. Each of the two answers is worth 500 points to the team that gets them right. No single Bible reference will answer either question. A concordance and a Bible map will likely be needed to find one or more of the answers. Team mates are encouraged to work together to find the answers. Points will be awarded to each team that gets an answer correct, even if both teams get it correct. The answer should be kept secret from the other team. Answers should be provided in writing next Sunday during Galilean Bible Quiz time.

Questions:

Approximately how far was the city in which Jonah was born from the city in which Jesus was Born?

The city in which Jonah was born was in the territory assigned to which tribe of Israel?
